

Offering Can Labels

This label is designed to fit around a 16 oz. frosting can. Photocopy or print the labels below (a printable PDF is available at the LHF website, www.LHFmissions.org) and collect empty, clean frosting containers. When you have enough containers, let the children color in the labels. Then have your students cut them out and tape them to cans. A teacher or other adult should cut slits in the lids for change.
